

Interviews in Bournemouth

The main aim of this experience consisted in asking some questions to some citizens about Bournemouth.

We (Chiara, Elisa and Giorgia) interviewed a lot of people. At the beginning we asked a group of three girls: Noemi, Mary and Amicia. Then it was the turn of a shop assistant in a teddy shop in town: her name is Katy. And finally we interviewed a couple: Sarah and Michael.

We asked them all how long they have lived in Bournemouth and they all answered that they have lived in town for a few years, for work or study.

Then we asked what activities there are in Bournemouth, especially in summer. They said there are many activities on the beach, like surfing and beach volley, and food festivals where many people participate. There is also a mini golf course for families and children.

At the end we asked them if they recommended Bournemouth for exchange students and most of them replied that it is a beautiful town but it would be nicer if it was closer to London. Others have answered that they prefer the town in summer because there is a better climate.
